DMS

ONECELL® Small Cell Device Management System.

- Plug and play provisioning, SON, diagnostics and reporting, security and upgrades
- Automatically configures over 100 key network and RF parameters for access points
- Visually intuitive dashboards allow support personnel to quickly identify and resolve customer issues
- SOAP/XML and SNMP northbound interfaces support integration with existing OSS and network management systems
- Ideal for businesses with a large number of small and medium-size venues such as retail stores or branch offices
