

# Elevated equipment platforms

CommScope announces the release of a new series of elevated equipment platforms designed for wireless installations located within flood plains. This new family of equipment platforms helps protect sensitive equipment from damage due to storms and flooding. Platform kits feature everything required for an elevated installation, including a base platform that is 7 ft by 9 ft, a 3 ft x 3 ft landing, top rail kit, and an H-frame for equipment mounting—along with elevation kits and stairs to achieve desired platform height.

## FEATURES AND BENEFITS

- Heavy-duty 7 ft by 9 ft base platform
- Kits include platform, railings, H-frame, landing, stairs, and elevation kits
- Multiple heights available
  - 3.5 feet
  - 5.5 feet
  - 7.5 feet
  - 11.5 feet
  - 11.5 feet
